EDUCATION

Kalinga Institute of Industrial Technology (KIIT) — Bhubaneswar, Odisha, India

B.Tech. in Computer Science and Engineering; ***CGPA: 9.30/10.00*** — *Aug 2024 – May 2028*

- **Relevant Coursework:** Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems.

TECHNICAL SKILLS

Languages: C++, JavaScript, TypeScript, Python, SQL
Frontend: React.js, HTML5, CSS3
Backend: Node.js, Express.js, FastAPI, REST APIs
Databases & Deployment: PostgreSQL, Vercel, Render
Tools & Core CS: Git, GitHub, Postman, DSA, OOP, DBMS, Operating Systems

EXPERIENCE

Open Source Contributor — Remote

GirlScript Summer of Code 2025 & Independent Contributions — *May 2025 – Present*

- Fixed unused dependencies and sanitized the `.env.example` file in **RIVETO** to remove unnecessary packages and replace unsafe example values.
- Improved navigation and footer links and updated the About page in **GrowCraft** through merged pull requests.
- Merged **6+ pull requests** across open-source repositories, including RIVETO, GrowCraft, and First Contributions; incorporated maintainer feedback.

PROJECTS

ByteCargo | ***Full-Stack Logistics & Bidding Marketplace*** — Live Demo | GitHub

React.js, Node.js, Express.js, PostgreSQL, REST APIs, JWT, RBAC — *May 2026*

- Built a logistics marketplace where merchants create shipment requests and transporters submit competing bids with pricing and estimated delivery times.
- Implemented JWT-based authentication and role-based access control (**RBAC**) for merchant and transporter dashboards and protected routes.
- Integrated REST APIs with a PostgreSQL-backed backend and deployed the frontend on **Vercel** and backend on **Render**.

LearnMate | ***SSC JE Exam Preparation Platform*** — Live Demo | GitHub

React, TypeScript, FastAPI, Python, PostgreSQL, REST APIs — *Oct 2026*

- Contributed to an exam preparation platform featuring topic-wise question banks, previous-year questions, and timed mock tests for SSC JE aspirants.
- Implemented a lightweight question-index API that returns question metadata, including subject, topic, year, and shift, without loading the full question bank.
- Added backend support for lightweight question indexing and retrieval, avoiding unnecessary eager loading of related question data.

ACHIEVEMENTS

Problem Solving: Solved **200+ LeetCode problems** (Profile).

Smart India Hackathon 2026: Participated in the institutional selection process for problem statement SIH26135.

Certification: Responsive Web Design (freeCodeCamp).
